Goal

The screenshot shows a Veo video player interface. The top left has the Veo logo and the video title '10/10 sc surf 08 vs CESA' with 'October 10, 2021 - 6 views' below it. The top right has 'Download', 'Share', and a menu icon. The main area is a video player showing a wide-angle shot of a soccer field with many players in various colored jerseys. The right sidebar shows 'All highlights 6' with a '+ Create' button. Below that, there are two highlight items: 'Half start' at 00:06 with 'Save' and 'Delete' buttons, and 'Goal' (partially visible).

FIND YOUR MOMENTS

- ▶ Limit your video to maximum 4 minutes
- ▶ Better to have fewer great plays than a lot of average plays
- ▶ Best plays first
- ▶ Ideally have some in possession and out of possession that show your strengths or soccer IQ
- ▶ Note the timestamp they happened in the video
- ▶ *Good to watch through the games anyways for learning purposes

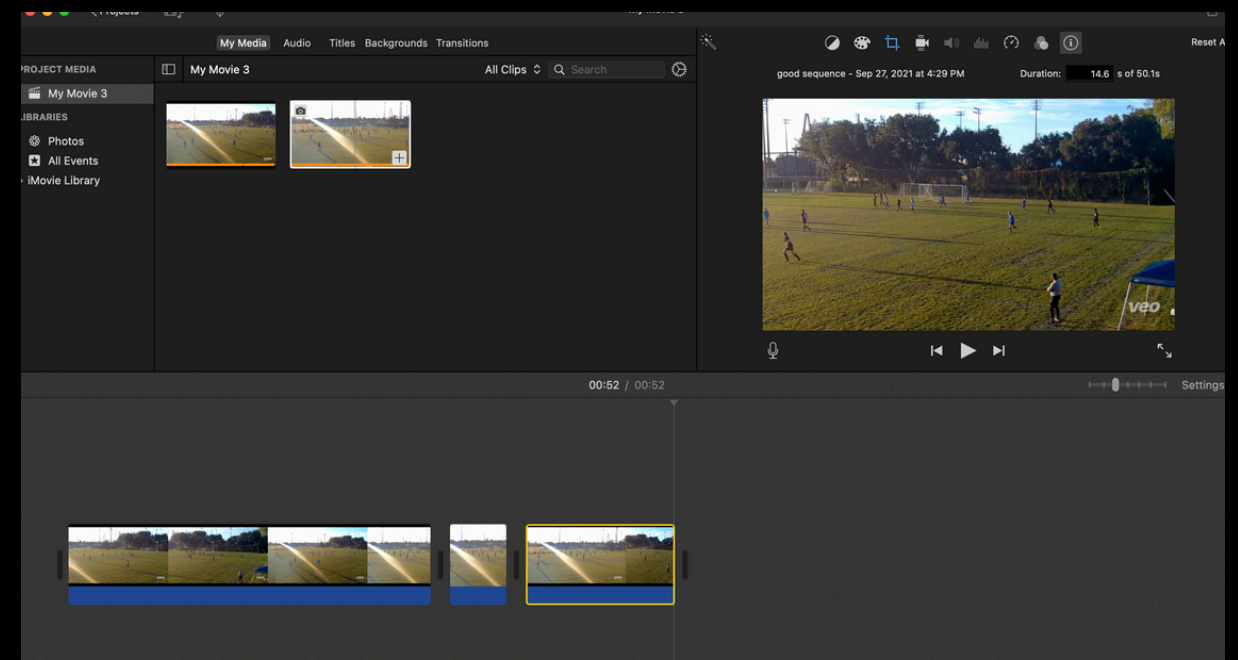

SCREEN RECORD YOUR CLIPS

- ▶ Go to the timestamp of your noted clips, and go 5s back (to allow time for trimming). Pause video
- ▶ Make sure your entire screen is the downloaded video (full screen)
- ▶ Open screen record program-for Mac, just select: SHIFT+COMMAND+5
 - ▶ A camera will appear on the screen
 - ▶ Click the page to start the recording, and then hit play on the video
 - ▶ To stop the recording, select: CONTROL+COMMAND+ESC
 - ▶ The screen recording will appear on the bottom right of the screen
 - ▶ Title the clip something to remember it by (10/10 vs Wake North 05, 1v1 dribble to cross)
 - ▶ Continue this process for your clips until you are satisfied

OPEN IMOVIE OR SIMILAR PROGRAM TO UPLOAD CLIPS

- ▶ Open iMovie or similar program
- ▶ For iMovie:
 - ▶ Create new-movie
 - ▶ Import media
 - ▶ Select all the clips you would like to add
 - ▶ Drag clips to timeline (bottom of page) in the order you would like them
 - ▶ Order should be either best clips first, by match, or by category (goals, assists, crosses, 1v1 defending, blocking shots etc.)

TRIMMING YOUR CLIPS

- ▶ In iMovie:
- ▶ Go to beginning and end of clip to trim as needed. Drag to trim. Remove unnecessary footage-but include moments before and after your clip to show spaces you took up/movements and decisions you made if important

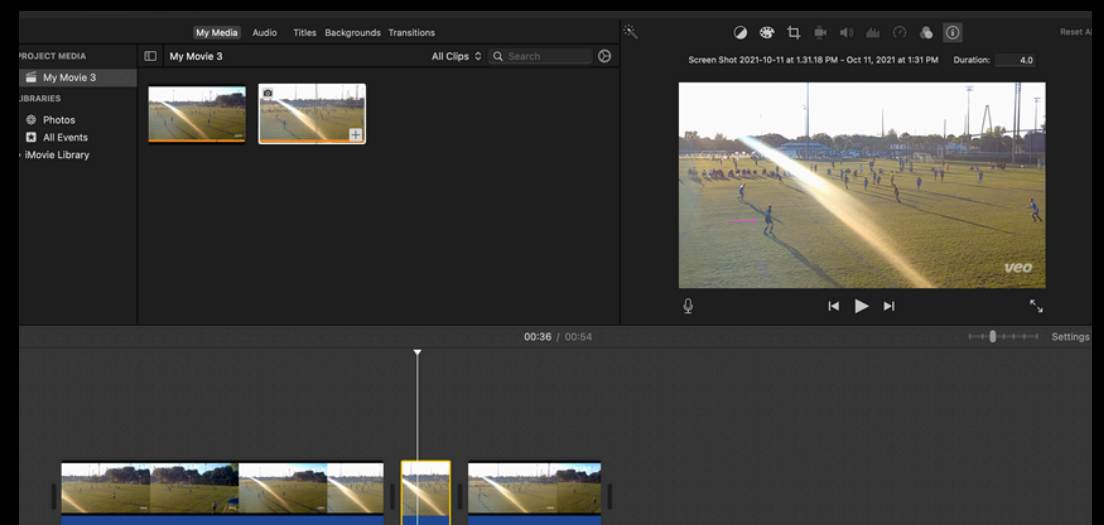

HIGHLIGHT YOURSELF IN THE VIDEO (A BIT MORE WORK)

- ▶ If you want to make yourself known in the video in iMovie:
- ▶ Select a moment in the clip where you want to be identified (ie before you receive the ball, before you tackle etc)
- ▶ Pause the video and make it full screen
- ▶ Take a screenshot (SHIFT+COMMAND+4)
- ▶ Open screenshot and edit by:
 - ▶ Selecting mark-up tool
 - ▶ Select shapes-select arrow
 - ▶ Drag arrow to highlight yourself
 - ▶ Save the image and title to remember it by

HIGHLIGHT YOURSELF IN THE VIDEO (A BIT MORE WORK)

- ▶ Go to iMovie and upload the image you just edited
- ▶ Go to where you paused the video and double click-split clip
- ▶ Drag the image to this split area
- ▶ Select the image-go to cropping-fit
- ▶ Set the duration to desired duration (2-3 seconds is good)
- ▶ Play from beginning to see results
- ▶ *This may be necessary for some clips but isn't required for all if it is obvious the clip portrays your skill

ADD BIO AT BEGINNING AND END

- ▶ Info to include at beginning:
 - ▶ Name, grad year, position, club/team, jersey number
- ▶ Info to include at end:
 - ▶ Name, grad year, position, club/team, jersey number, contact info (cell/email), references (coach/director) and upcoming schedule

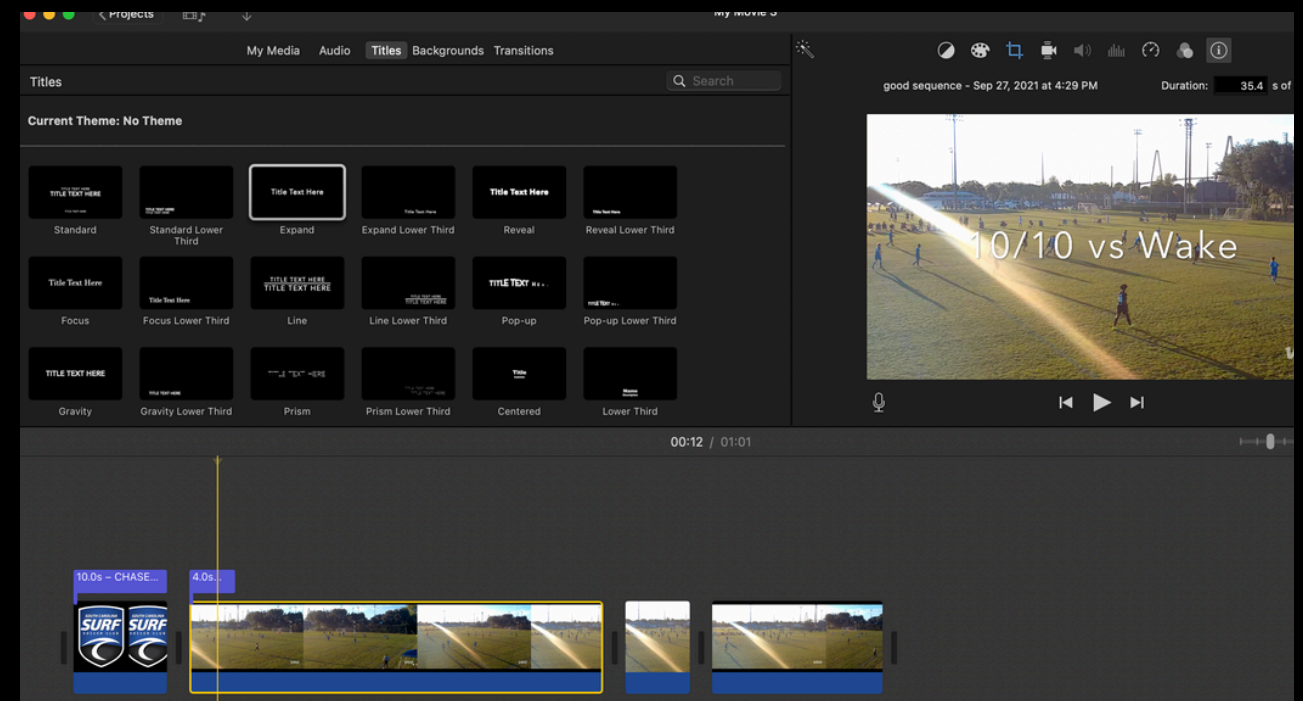

ADD BIO AT BEGINNING AND END

- ▶ How to include info
- ▶ Use a player profile picture
- ▶ In iMovie:
 - ▶ Import the picture and drag to the beginning of the film
 - ▶ Set the duration to desired length (10 seconds) and crop to “fit”
- ▶ Add title
- ▶ Set duration to same length as image
- ▶ Repeat process for end of clip with added contact info, references and upcoming schedule

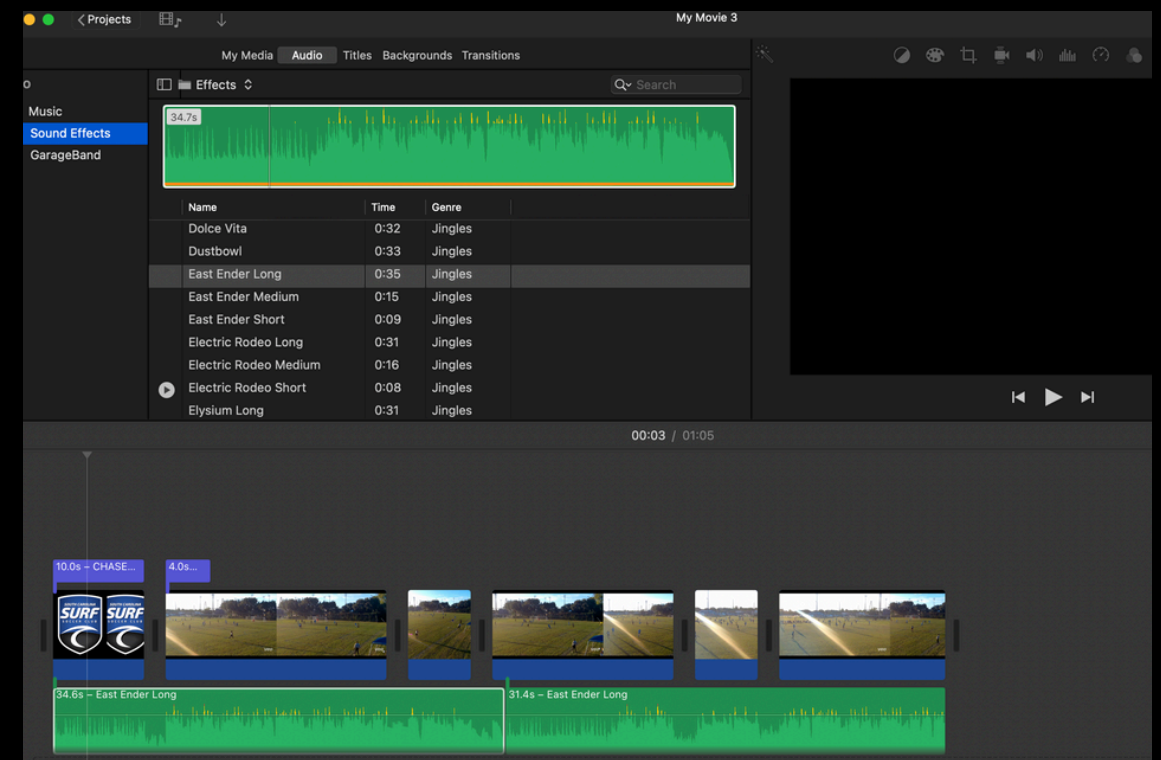

IF YOU WANT TO ADD A TITLE TO A CLIP

- ▶ In iMovie:
- ▶ Select the desired clip in the timeline
- ▶ Select title
- ▶ Insert desired text (10/10 vs Wake North 05 NPL)
- ▶ Set duration of clip (4s)
- ▶ Move title on timeline to match the clip

ADD AUDIO

- ▶ In iMovie: Go to audio and either select provided templates or you can download a file
- ▶ Drag the audio clip to the timeline
- ▶ Adjust length of audio clip to fit your highlight video (may have to repeat the audio clip 2-3 times and shorten the last audio clip to fit the video length)

TITLE SAVE SHARE

- ▶ In iMovie:
- ▶ Title and save your project
- ▶ Can export the file and add to YouTube or send as an attachment in your email to coaches
